#### **The Budget Process**

Members will be aware from the adoption of the 2015 Annual Budget that the process for the preparation, consideration and adoption of the budget requires statutory compliance with a number of steps which can be summarised as follows:

| Step 1 | Decision by the Council on the adjustment factor to the Local Property Tax (LPT) following a public consultation process. | Decision made at the Council Meeting on the 14th September, 2015.  |
|--------|---|--|
| Step 2 | Allocation of the General<br>Municipal Allocations (GMA)  | Considered at Borough/District<br>Meetings on dates outlined above.  |
| Step 3 | Consultation with the Corporate<br>Policy Group (CPG) and Adoption<br>of the Draft Budget by Council.                     | Budget Strategy presented to CPG Meeting held on the 12 <sup>th</sup> October, 2015. Statutory Budget Meeting scheduled for the 20 <sup>th</sup> November, 2015. Budget Workshop held on the 9 <sup>th</sup> November 2015 (non-statutory) |
| Step 4 | Consideration and adoption of the schedule of Municipal Works by each of the Borough/Municipal Districts.                 | Borough/Municipal District Meetings to<br>be convened in early 2016 following the<br>adoption of the Budget.   |

The model for funding local government has been substantially revised in recent years. Prior to 2013, each local authority was notified of its Local Government Fund (LGF) General Purpose Grant by the Department of Environment, Community and Local Government. In 2014, the funding model was revised to take account of the establishment of Irish Water. Local Authorities received an allocation towards the cost of operating water services from Irish Water and the LGF was reduced accordingly to take account of this. Since 2015, allocations are based on the Local Property Tax (LPT) which contains an equalisation measure to ensure that the overall allocation available to the county is in line with previous years. Tipperary is heavily dependent on this source of income.

Following the decision of the Council on the 14<sup>th</sup> September 2015 not to vary the adjustment factor for the Local Property Tax (LPT), the Department of the Environment, Community and Local Government has confirmed by Circular Fin 10/2015 of the 9<sup>th</sup> October, 2015 that the LPT allocation to Tipperary County Council in 2016 will be €23,320,110 which is in line with the allocation for 2015.

The notification of allocations at an earlier stage of the budgetary process is welcome and provides greater certainty in the budgetary process. Irish Water will continue to fund water services, as in the current year, under the Councils Service Level Agreement (SLA) and Annual Service Plan (ASP).

At your forthcoming Budget Meeting, the Members will be asked to make the following decisions:

- adopt the Budget with or without amendment
- determine the Annual Rate on Valuation (ARV) and agree on the approach to rates harmonisation across the county.
- determine the proportion of rates refunds applicable on vacant commercial premises.

#### **Budgetary Challenges**

The preparation of the 2016 Budget has been challenging. There are a number of issues of concern including:

- Tipperary County Council is heavily dependent on Central Government and other
  national grants sources to fund services. Grants from these sources account for over
  55% of all income in the revenue budget. The Council is the second highest recipient
  of LPT equalisation funding to all local authorities. While these allocations are
  welcome, the level of dependency represents a high financial risk particularly in times
  of economic uncertainty.
- The Council adopts a prudent "balanced budget" approach to the management of finances and budgetary control. While demands for increased expenditure across all areas are increasing, this is not being match by a corresponding increase in income. Accordingly, if demand expectations are to be realised, the income base of the Council must be expanded through realistic pricing and a focussed approach to the collection of debt.
- The loss of a major ratepayer and reduction on global valuations for Utilities recently notified by the Valuation Office in 2016 will adversely impact on income.
- Arising from external market trends and other factors, there will be an uplift of 5.98% in insurance premium payable in 2016.
- Increased costs in pensions, lump sums and payroll increments. Payroll, including salaries and pensions account for 44 % of the revenue budget and have been steadily increasing due to the number of retirements and reduced superannuation contributions. The scope, therefore, for any new recruitment of staff in the absence of additional revenue sources is constrained and payroll must be maintained at sustainable levels.

#### **Economic Environment**

National forecasts give reason for optimism on the economic recovery process. The pace of economic recovery strengthened in the first half of 2015 with annual growth rates of 7.2 and 6.7 per cent in the first and second quarters respectively and indicators suggest the strong economic performance has continued into the third quarter.

GDP growth of 6.2 per cent is now projected for this year, while an increase of 4.3 per cent is expected for next year.

Employment growth of 2.8 per cent is projected for this year, with the unemployment rate expected to average at 9.5 per cent. A further reduction in the unemployment rate is forecast for 2016, with an average rate of 8.3 per cent currently expected. Labour market conditions continue to strengthen with some 130,000 additional jobs created since the low-point reached in mid-2012. The latest figures show that in the first half of this year, employment grew by 2.6 per cent year- on-year, corresponding to an annual increase of 50,000 jobs.

Spending by households has been growing at an annual rate of 3.3% in the first half of this year, due to employment gains, increases in disposable income and improved consumer confidence. Personal consumer expenditure is projected to increase by 3.5 per cent this year, with the same rate of growth projected for next year.

Local factors give rise to disparities in the rate of recovery across the country and within the country. Factors including commercial rate collection, activity on planning applications and the creation of new employment opportunities suggest that the rate of recovery in Tipperary is lagging behind the national rate. However, there are encouraging signs in areas such as consumer spend and a gradual reduction in the number of unoccupied retail and commercial premises in towns across the country.

#### **Budget Strategy and Objectives**

The Draft Budget has been prepared on the principle of a "balanced budget" based on the overall level of resources available to the Council and the requirement to meet statutory, contractual, legal and other obligations. It incorporates the decisions made by the Council in relation to the local property tax and general municipal allocations. Under the Local Government Act, 2001, the Draft Budget is required to set out the expenditure necessary to carry out the functions of the Council and the income estimated to accrue to the Council.

The key objectives of the 2016 Budget are to:

- Maintain essential and other local authority services across the county.
- Continue and where possible enhance our programme of supports to our communities.
- Support the economic recovery process locally.
- Further strengthen and deepen the merger process through consolidation of policies and work programmes.
- Continue to seek efficiencies in service provision, cost reduction and value for money.

This Budget builds on the vision statement set out in the Corporate Plan adopted by the Members earlier this year to be "Ambitious for our communities, demanding of ourselves and working to a shared purpose to deliver prosperity across the county": It seeks to deliver on the Corporate Plans three strategic themes of a Strong Economy, Quality of Life and a Quality Environment. Over the past 12 months, the Council has been particularly active in progressing measures to underpin economic recovery, nurture a positive environment for job creation and enhance towns and villages. These include:

- The opening of the Questum Centre and active marketing of the Tipperary Science and Technology Park at Ballingarrane, Clonmel.
- Purchase of the Kickham Barracks site and completion of the planning process for a new town centre plaza in Clonmel.
- Completion of new town parks in Nenagh and Thurles.
- Purchase of the Roscrea Business and Innovation Park.
- Securing Redz inititiative funding for Fethard, Tipperary, Nenagh and Clonmel.
- Roll-out of a range of town centre initiatives including the commercial incentives scheme, painting scheme, Christmas retail support programme and engagement of a retail expert to work with town centre business fora.
- Commencement or completion of tourism projects along the River Suir Blueway, Lough Derg and Butler Trail.
- Development with the Tipperary Tourism Board of the first all-county tourism website.

Next year will mark the 100<sup>th</sup> anniversary of the *1916 Rising*. In partnership with the National Commemorative Programme and our local communities, Tipperary County Council has put in place a series of events to mark the Centenary. Financial provision has been made in the Draft Budget to complement national funding to support this Programme of Events.

#### Commercial Rates/Annual Rate on Valuation (ARV)/Rates Harmonisation

Commercial rates are an essential source of income to Tipperary County Council accounting for over 20% of all income and are invested to ensure delivery of services across the county. It is critical that the level of income raised from this source is maintained at current levels. The Draft Budget has been prepared on this basis. The ARV for County Tipperary of 56.77 is very competitive in comparison with other counties and is currently the fifth lowest rate amongst county rating authorities in the country.

Arising from the merger of the former Rating Authorities in the county, the Council is required to harmonise the ARV's applied by these Authorities. The mechanism for the harmonisation of commercial rates is set out in the Local Government Reform Act 2014. It includes an adjustment mechanism known as the base year adjustment (BYA) to ensure convergence of rates between the County Council and former Town Authorities. The 2015 ARV's for the former County and Town authorities is shown in the following table:

| Local Authority                | ARV - 2015 |
|--------------------------------|------------|
|                                |            |
| Clonmel Borough Council        | 58.84      |
| Cashel Town Council            | 57.56      |
| North Tipperary County Council | 56.77      |
| South Tipperary County Council | 56.77      |
| Thurles Town Council           | 56.77      |
| Nenagh Town Council            | 55.68      |
| Templemore Town Council        | 53.90      |
| Tipperary Town Council         | 52.20      |
| Carrick on Suir Town Council   | 50.99      |

The Draft Budget has been prepared in compliance with the provisions of the Local Government Reform Act, 2014 and provides for the convergence of ARV's across the county over a 2 year period. The impact of this convergence process for 2016 is set out in the following table:

| Town/County Area | Existing ARV | Proposed ARV 2016 |
|------------------|--------------|-------------------|
| Tipperary County | 56.77        | 56.77             |
| Clonmel          | 58.84        | 57.80             |
| Cashel           | 57.56        | 57.16             |
| Thurles          | 56.77        | 56.77             |
| Nenagh           | 55.68        | 56.23             |
| Templemore       | 53.90        | 55.34             |
| Tipperary        | 52.20        | 54.49             |
| Carrick on Suir  | 50.99        | 53.88             |

Section 31 of the Local Government Reform Act, 2014 contains new provisions in relation to the proportion of rates refund applicable on vacant properties. The Council currently applies a refund of 100% subject to compliance with certain conditions. The Act provides that, as a reserved function, the Council may specify a local electoral area (or areas) where owners of vacant premises shall be entitled to claim and receive a refund of a differing proportion of the county rate and determine the proportion of the refund to apply in respect of each local electoral area. The Draft has been prepared on the basis of continuing existing arrangements. However, this will be reviewed in 2016 having regard to the improving economic environment and the need to incentivise occupancy of commercial and retail premises.

#### HOUSING AND BUILDING

#### MAINTENANCE/IMPROVEMENT OF L.A. HOUSING UNITS

#### Maintenance of LA Housing Units

Tipperary County Council has a sizeable stock of houses which require significant resources to maintain. In general the Council is responsible for repairs to the exterior of the house while the tenant is responsible for the maintenance of the interior. The focus in 2016 will be on delivering essential maintenance, through the use of direct labour staff and contractors, and ensuring that change of tenancy repairs are completed as soon as possible. The Council will continue to avail of any funding under the 'Voids' programme made available by the Department of Environment, Community & Local Government to supplement this budget.

Energy Efficiency Programme – The DECLG continue to fund an Energy Efficiency Programme, the focus of which is on a fabric improvement policy for tenanted stock, directed towards a 'comfortable living' baseline of 300mm roof insulation, wall insulation and draught proofing. The Council will continue to prioritise activity under this programme during 2016.

#### Maintenance of Traveller Accommodation Units

The Council continues to work with traveller families, representatives and other agencies to address traveller needs within the county. Tipperary County Council pursuant to Section 8 of the Housing (Traveller Accommodation) Act, 1998 prepared a Joint Traveller Accommodation Programme for the period 2014 – 2018. The Council is committed to using the various Social Housing Options available to provide accommodation including Council owned and Traveller Specific accommodation, RAS and Social Leasing Schemes, and the Housing Assistance Payment. Halting site caretakers, in conjunction with housing staff, continue to address routine maintenance and management issues in halting sites and group housing schemes. 50% of the routine maintenance costs of halting sites are recoupable from the DECLG.

#### Traveller Accommodation Management

This provision is for salary costs of Social Workers who continue to support traveller families in the provision of their accommodation needs and help to promote links between the Council and statutory/voluntary organisations providing services for travellers. 90% of this item is recoupable from the Department of the Environment, Community and Local Government. Also includes Supervisor costs for Halting Sites, 75% recoupable from the DECLG.

#### HOUSING RENT & TENANT PURCHASE ADMINISTRATION

#### Debt Management and Rent Assessment

This provision covers staff salaries, payments to An Post for Bill Pay and Household Budget Services, and other costs associated with the collection of rent and tenant purchase annuities. The Council will continue to offer a variety of payment methods to facilitate and help our tenants and we encourage use of the various electronic methods of payment most suited to our tenant's circumstances. We will continue to implement our Rent Arrears Policy in a pro-active manner to assist tenants with difficulties. As part of this policy we aim to identify, as quickly as possible, accounts which are falling into arrears, and through early intervention, put in place effective measures to address the situation before the level of arrears accumulate. In cases where arrears do escalate, we will make every effort to negotiate an agreement with tenants before legal proceedings are issued.

#### HOUSING COMMUNITY DEVELOPMENT SUPPORT

#### Housing Estate & Tenancy Management

There are 5 Community Liaison Officers employed by Tipperary County Council to encourage and support the ongoing participation of our residents in the estate management function. Having our tenants and resident committees working in partnership with the Council to help enhance and maintain our Local Authority estates is of the utmost importance. With a small financial incentive we see communities taking responsibility for their areas and working towards creating safe and secure neighbourhoods for all to enjoy.

These schemes are funded through an exchequer contribution of 80% of scheme costs and provision is made for required matching funding of 20% to be met from the Council's resources.

#### **Housing Grants Support Costs**

This includes salary and apportioned costs relating to this service area.

#### HOUSING ASSISTANCE PAYMENT

#### Housing Assistance Payment (HAP)

HAP is a new form of housing support provided by local authorities. The introduction of HAP will mean that local authorities can now provide housing assistance for households who qualify for social housing support, including many long-term rent supplement recipients. Under HAP, local authorities will make the full rent payment on behalf of the HAP recipient directly to the landlord. The HAP recipient will then pay a rent contribution to the local authority. The rent contribution is a differential rent - that is, a rent based on income and the ability to pay. HAP is being introduced on a phased basis and commenced in Tipperary County Council on 29<sup>th</sup> June, 2015. HAP provides a more integrated system of housing supports and aims to:

- allow all social housing supports to be accessed through one body the local authority, and
- allow recipients to take up full-time employment and still keep their housing support.

## WATER SUPPLY AND WASTE WATER

#### **IRISH WATER**

#### Background:

The Programme for Government for National Recovery, 2011-2016, published on 06 March 2011, commits to the creation of Irish Water, a state company which will take over the water (including waste water) investment and maintenance programmes of the 34 county and city councils (reduced to 31 with effect from 01 June 2014) with the key aim of supervising and accelerating the significant investment needed to upgrade the state's water and waste water infrastructure.

The government agreed on 17 April 2012 to establish Irish Water as an independent, state-owned subsidiary within the Bord Gáis Éireann (BGE) group. BGE was renamed Ervia on 20 June 2014.

#### Legislation:

- (a) Water Services Act 2013: this enabling legislation established Irish Water and empowered it to commence the installation of domestic water meters.
- (b) Water Services (No. 2) Act 2013: this enduring legislation provided for the transfer of water services functions, which are set out in the Water Services Act 2007, from local authorities to Irish Water, with effect from 01 January 2014, and other related matters.
- (c) Water Services Act 2014: this legislation related to a number of matters, including domestic water charges, water conservation grant, public water forum and other related matters.

#### **Economic regulation:**

The Water Services (No. 2) Act 2013 provides that the Commission for Energy Regulation (CER) shall perform its functions in a manner that best serves the interests of the customers of Irish Water. The CER will be required to have regard to the need for Irish Water to be able to finance its activities, to ensure the continuity, safety and sustainability of water services and to ensure that costs are recovered from the users of water services in accordance with the EU Water Framework Directive 2000.

#### Service Level Agreement:

While statutory responsibility for water services has passed to Irish Water since 01 January 2014, local authorities will remain very involved in the sector for a considerable period, acting as agents of Irish Water in relation to the operation and maintenance of services. This phased transition will mean local authorities will operate under Service Level Agreements with Irish Water for a considerable period, doing exactly what they do on a day-to-day basis at present, e.g. operating and maintaining water and waste water treatment plants and networks, and finding and

fixing leaks. Irish Water will be setting the level of service, in light of its contract with the economic regulator (i.e. the CER), and driving efficiencies and accelerated investment.

Tipperary County Council (as the successor of the former North Tipperary County Council and the former South Tipperary County Council) has entered into a Service Level Agreement with Irish Water, with effect from 01 January 2014. This is a binding agreement and will remain in place for a period of 12 years, with reviews after 2 and 7 years, respectively. It provides for the following:

- reimbursement in respect of expenditure incurred by the Council in the performance of its functions pursuant to the agreement;
- standards to be met by the Council in the performance of the said functions;
- resolution of disagreements in relation to the performance of the functions; and
- performance by the Council of functions within the functional area of another local authority.

#### Annual Service Plan:

In conjunction with the Service Level Agreement, an Annual Service Plan must be prepared through a joint planning process between the Council and Irish Water. An Annual Service Plan (ASP) for 2015 was prepared in relation to Tipperary County Council. The ASP 2015 focuses on such matters as:

- the budget for the operation and maintenance of water and waste water services, including finance and headcount;
- objectives and targets for infrastructural performance;
- operations and maintenance and improvement initiatives (Council-led);
- capital investment plan (Irish Water-led);
- service and activity performance; and
- other matters as they arise.

Preparations are underway in relation to the ASP 2016 for County Tipperary.

#### Capital Investment Plan:

On 13 May 2014 Irish Water published its Proposed Capital Investment Plan (CIP) for 2014 to 2016. Investment is prioritised where it can deliver the most urgently needed improvements in drinking water quality, leakage, water availability, waste water compliance, efficiencies and customer service.

The attached table provides an update of the current status of capital projects in Co. Tipperary.

Irish Water has commenced the process of preparing the CIP for 2017-2022.

#### Water Conservation:

Water conservation is the most cost-effective and environmentally friendly way to reduce our demand for water. This helps to preserve our natural water resources, puts less pressure on our waste water treatment facilities, gives greater value for money for customers and provides a greater level of service and water quality for all consumers.

Leak detection and repairs are ongoing as part of the Water Conservation Project, which was rolled out across the county in 2005. Water conservation is important as it allows for active leakage control and better planning of watermains rehabilitation.

The Water Conservation Project Team has had a renewed focus in 2015 in the light of the reform of local government and forms an integral part of Water Services.

Irish Water will be acutely aware of the importance of water conservation to the delivery of water services. Water conservation will be a key feature of the ASP 2016 as agreed by the Council with Irish Water.

#### Minor Capital Programme:

In addition to its CIP 2014-2016, Irish Water launched a Minor Capital Programme on 16 June 2014. This consists of programmes aimed at optimising the performance of existing assets with targeted low level investment.

The Minor Capital Programme is a key element of the delivery of water services by Irish Water. Of particular interest and relevance are:

- works required to address the Remedial Action List (RAL) as prepared by the Environmental Protection Agency (EPA) and works to address other drinking water compliance issues; and
- works to address the EPA's waste water discharge authorisation (licence or certificate of authorisation) requirements and other compliance works.

As part of the ASP, the Council continues to engage with Irish Water in respect of the identification of appropriate measures to be undertaken at specific water and waste water treatment plant locations to progress outstanding issues under the above categories. Business cases have been submitted in respect of proposed works and progress on the development and execution of these works will be monitored in the light of emerging circumstances, having particular regard to the budget available to Irish Water.

#### Water Quality:

The Council is required to carry out regular monitoring of public and group water scheme supplies to assess drinking water quality. Monitoring results have indicated that the quality of water in this county is generally satisfactory. However, deficiencies do occur, which require improvements in the treatment of water supplies.

The maintenance of high standards of water quality, together with full regulatory compliance, will be a key feature of the ASP 2016 submitted by the Council to Irish Water.

#### **RURAL WATER PROGRAMME**

#### Focus:

The focus of the Rural Water Programme for 2015 in respect of group water schemes has been to address remaining inadequacies in the quality of drinking water so as to ensure compliance with the priorities set down in the European Union (Drinking Water) Regulations 2014 through:

- (i) the provision of treatment and disinfection facilities;
- (ii) source protection measures; and
- (iii) the rehabilitation and upgrade of distribution systems.

#### Rural Water Monitoring Committee:

The Council's Rural Water Monitoring Committee consists of 5 members of the Council and representatives of the group water schemes and of rural organisations in the county in addition to a representative from the National Federation of Group Water Schemes. The Rural Water Monitoring Committee has met on 3 occasions in 2015 in Thurles with the next meeting scheduled for 12 January 2016.

The task of improving the quality, reliability and efficiency of rural water supplies has to be undertaken in a structured way, with the Council, group water schemes and other rural interests working together to achieve shared objectives and making the best use of available resources.

Expenditure in County Tipperary in 2015 in respect of group water schemes covers the following areas:

- (i) an initial block grant allocation;
- (ii) a supplementary block grant allocation and
- (iii) annual subsidy for the maintenance of group water schemes (which is recoupable from the Department of the Environment, Community and Local Government (DoECLG).

In consultation with the Rural Water Monitoring Committee, the Council will be shortly preparing its submission to the DoECLG for a block grant allocation for 2016.

Grants for the provision or necessary improvement of an individual water supply to a house:

To date in 2015, 38 applications have been approved and grants in the sum of €67,537 have been paid to applicants. It is expected that a sum of €80,000 will be

paid in 2016 as responsibility for the administration of this grant scheme will remain with Tipperary County Council. Grants paid are recouped from the DoECLG.

# Grants payable pursuant to the domestic wastewater treatment systems (Financial Assistance) Regulations 2013:

To date in 2015, 2 applications have been approved and grants in the sum of €6,180 have been paid to applicants. It is expected that a sum of €10,000 will be paid in 2016 as responsibility for the administration of this grant scheme will remain with Tipperary County Council. Grants are recouped from the DoECLG.

#### REVENUE EXPENDITURE

#### Water:

The ASP submitted to Irish Water has included estimated revenue expenditure for 2016. This provides for the operation and maintenance of all public water supply schemes in the county. The Council operates 45 no. town and regional water supply schemes. It has a network in excess of c. 3,265 kilometres of public watermain.

#### Waste Water:

The ASP submitted to Irish Water has included estimated revenue expenditure for 2016. This provides for the operation and maintenance of all public waste water facilities in the county. The Council's portfolio covers 91 no. waste water treatment plants, including pumping stations and the associated sewer network serving towns and villages throughout the county. Each of these plants is subject to either a licence (where the population equivalent exceeds 500) or a certificate of authorisation (where the population equivalent is less than 500) from the EPA.

#### **CONNECTIONS**

#### Water Connections:

It is estimated that 70 water connections will have been made in 2015. A similar number is anticipated for 2016.

#### Waste Water Connections:

It is estimated that 10 waste water connections will have been made in 2015. A similar number is anticipated for 2016.

#### General:

Responsibility for the provision of water and waste water connections has transferred to Irish Water with effect from 01 January 2014. The Council continues to assess all

## FIRE SERVICE

Services such as administration, fire safety activities, dangerous substances licensing, building control, major emergency management etc., are delivered from the Fire Service Headquarters at Limerick Road, Nenagh and from the Clonmel Fire Station at Heywood Road, Clonmel.

The operational service is delivered through twelve fire stations located in Nenagh, Clonmel, Thurles, Roscrea, Carrick on Suir, Templemore, Newport, Borrisokane, Tipperary, Cloughjordan, Cahir and Cashel. The dedicated crews, together with modern vehicles and equipment, ensure delivery of a prompt, efficient and effective response to between 1400-1500 incidents on a 24/7 basis. This is supported by the Munster Regional Control Centre, which receives calls from the public through the 999/112 service and mobilises the appropriate fire service resources in Tipperary.

The Council continues to encourage property owners to ensure that their insurance cover includes for the cost of fire service charges. The income from Fire Service charges contributes a small proportion of the cost of delivering the service. A waiver scheme is operated for the benefit of service users where the charge might give rise to hardship, particularly in the case of fires in domestic buildings.

The Fire Training and Development Centre based at Heywood Road, Clonmel continues to provide a high quality service for a large number of fire authorities and some private sector training companies. 2015 was the busiest year to date in the centre and it is hoped to continue the levels of activity into 2016. The income generated from the centre's activities contributes towards the overall running of the service.

2015 marked a very good year for Tipperary Fire Service in terms of health & safety. The entire service, including the training and development centre, was certified to the international Occupational Health and Safety Standard OHSAS18001 in 2015 and Tipperary Fire Service won the overall award for best Public Service at the annual National Irish Safety Organisation Safety Awards for the second year running. Tipperary Fire Training and Development Centre is the only such centre in the Country certified to both ISO9001 and OHSAS18001.

# LIBRARY SERVICE

"Our mission is to ensure that everyone has equal opportunity access to a high quality Library and Information Service which is responsive to the changing needs of our communities and is fully supportive of the process of life-long learning."

The public library service in Tipperary is made up of 12 public libraries, a Local Studies section and County Schools Library, all focused on delivering on our mission statement by encouraging and supporting communities and individuals to be 'readers' and 'learners'. We strive to maintain optimum opening hours to meet the needs of our 600,000 visitors per year and to make sure that these customers are provided with an excellent customer service by professional, helpful and knowledgeable staff.

Libraries also serve as a reference point for people looking for other Council services and act as service points for services such as Motor Tax online and other egovernment functions.

We are finding ways of working smarter and harnessing technologies such as SMS texting, PC reservations, Online Catalogue requests and renewals to name a few. These technologies are allowing us to issue approximately 450,000 books per annum and facilitate 76,000 PC and internet sessions whilst optimising staff time to deliver service development events, programmes and initiatives which are vital to the growth and continued relevance of our libraries in local communities.

Our schools library service delivers books directly into the hands of teachers and students across the county, focusing on the schools not within visiting distance of their local library. The Schools Mobile Unit is on the road 5 days per week visiting over 160 schools 3 times per year. The Schools Service also provides specialised book loans to resource teachers, books in Irish, class novel sets and block loans to support school reading development projects.

Tipperary Studies, the local studies department, is a reference library and research centre dedicated to the collection of material on all aspects of County Tipperary. Tipperary Studies aims to collect and make freely accessible as comprehensive a collection of material relating to the history of Tipperary as possible, including published books, journals, newspapers, photographs, audio visual material microform, manuscripts and ephemera. Tipperary Studies is also home to the County Tipperary Historical Society.

Thousands of events are run each year harnessing local relationships with writers, artists, schools, musicians, business people, historians and agencies. Alongside these events, countywide and national event programmes are delivered through our library network such as: Tipperary People and Places Lecture Series, Tipperary

Reads, Seachtain na Gaeilge, Summer Reading Adventure, Children's Book Festival, Tipperary Bealtaine Festival and Science Week. These programmes are delivered in collaboration with national or local partners such as the Arts Office and Heritage Office. Weekly clubs and groups are developed and facilitated by staff such as book clubs for children and adults, storytime, craft groups and many more. Some innovative work has emerged, such as a book club for people with literacy issues, transition year reading projects, Skype book club and music appreciation groups.

Library services are at the heart of their community and are well placed to identify changes in a community and society - and the service needs to adapt or foresee these changes quickly with respect to service provision, resource management and staff development. In light of this, the library service has been involved in a number of new national initiatives:

- Business, Enterprise and Employment supports in Libraries Pilot
- 'Right to Read' Libraries leading literacy development

#### Other locally grown initiatives included:

- Living Well Library supports for people with Dementia and their families
- Polish / Irish Week
- Online Resources e-books, podcasts
- Local Studies Digitisation Project.

The occupier on the date on which the rate is made is primarily liable for the full year's rates. If a property is vacant, the owner or person "entitled to occupy" is liable for payment of the rates but will qualify for a refund of the rates paid subject to satisfying certain specified criteria.

Rates are payable in two moieties (i.e. two instalments), the first moiety when the rate is made and on receipt of the rates bill by the occupier of the premises and the second moiety by the 1st July. As an alternative, Ratepayers can opt to pay by monthly direct debit.

Section 32 of the Local Government Reform Act 2015 places an obligation on all occupiers to clear all outstanding rates before they vacate the property. Owners must clear all rates due by them before they transfer any property. Any rates due by the owner will become a charge on the property if transferred to another party without being cleared.

Section 32 also requires owners to inform the local authority, within 14 days, of any change of occupancy, or ownership of the property. Failure to inform the Local authority within 14 days may result in substantial penalties being applied.

The income generated by rates is used to fund a wide range of services provided by the County Council throughout the County.
