TCC/127/2026	23/06/2026	Member of public	The odour emanating from the above recycling facility is causing a significant and ongoing interference with the enjoyment of our property. I request that the council investigate the source immediately, provide details of enforcement actions taken, and advise what measures will be implemented to prevent recurrence ? Is it council policy to advise the above recycling centre in advance of any inspections ? Also, we are of the understanding that the roller doors are to remain closed, why then is there one always open ? We made similar complaints last year and little or nothing has improved. Under Freedom of Information (FOI) or Access to Information on the Environment (AIE) regulations, re the aforementioned recycling centre we request the following. Odour complaints received Inspection reports Enforcement notices Monitoring results Licence conditions
